**BUY A HOUSE IN USA
GET YOUR RENT IN US DOLLARS**

In USA Since
2005

In Turkey since
2015

Erdem **SEZER**
CEO / Co-Founder

A young national athlete goes to America in 1996, stays there for about 12 years, after university he buys a few houses in the USA. The rent income in dollars is twice or nearly three times more than the rental income of a house in Turkey. So when he comes back home, he starts searching ways to transfer his money in the States into his account in Turkey and pay his taxes. Briefly, the ways to get his money with no hassle.

During this period, he realized that a lawyer, an accountant and a real estate agent were also involved and it became a very long, difficult and expensive process.

Making things easier for himself brought the idea of founding **TRUSA Investment Management** Company. After a long process, **TRUSA Investment Management** Company was active in the USA in 2005 with two American partners. In years between 2005-2015 **TRUSA** was active in the States.

With the motto "Seamless Investment, profit in dollars." **TRUSA** has become a company that can provide rent guarantee for all its sales since 2015.

TRUSA, providing rent guarantee for all its sales since 2015, has quickly became the leader in its field in Turkey by assisting its clients to invest more than 2800 houses as of today .

Trusa's Story

TRUSA;

Assists investors in Turkey to purchase “existing (used) houses” and manage (collect rent and take care of) them afterwards.

TRUSA; being established in 2005 in America, is the only company in its field that can provide sales with the option of “rent guarantee existing (used) houses”.

In addition to its individual customers, TRUSA provides the purchasing and management processes of Turkish companies operating in the same field and selling **“existing (used) house with rent guarantee option”**.

In short even if you start purchasing a “existing used houses with the rent guarantee option” with another company, TRUSA will continue and complete that process.

Due to this strong foundation, it would be appropriate to say that TRUSA is the right address to purchase existing (used) house from America.

TRUSA **ADVANTAGES**

- ★ The title deed of your real estate is issued in your name. First, the copy will be sent to you by e-mail, and then the original will be sent to you by mail.
- ★ You will have a rental income nearly three times more than the rent income you can get in Turkey. (with the rent guarantee option)
- ★ All the needs of your house such as renting, maintenance and follow-up are provided by TRUSA professionals in America.
- ★ As of 2018 TRUSA manages the properties that it assists purchasing with TRUSA INVESTMENT LLC Property Management Company from their offices in 5 different states with their own teams.
In that way you will never pay high amounts of fees to subcontractors for the maintenance of your property, you can get TRUSA team's service.
- ★ Your rent is deposited in US Dollars to your bank account in the country you specify.
- ★ You can be directed to experienced professionals for residence permit and citizenship applications services in America according to your needs.
- ★ With a team of 71 professionals in 5 offices in America, we provide a real estate portfolio of the highest profit investment options to our investors.

and now...

TRUSA "FLIP", you can earn high profits in a short time like 6 months for the house you purchase in the States, by selling it after it is renovated by our teams.

“

An Investment Opportunity Sample;

With Trusa, an average rent income of a house you will purchase in America (**\$60.000**) after the rent guarantee commission is deducted brings **\$450-\$500** a month which is nearly three times more than the rent income you will get in Turkey.

The example above is not given to attract investors, it is one of the investment options of TRUSA.

Your Annual Expenses;

1. Real Estate Tax (Approximately one month rent income)
2. Natural Disaster Insurance (Approximately one month rent income)

The Return of Investment of a property you purchase from America will be around 11-12 years in US Dollars including all the expenses (taxes, natural disaster insurance and rent guarantee commission)

In other words, your \$60.000 investment will make net \$4.500-\$5.000 a year.

”

FREQUENTLY ASKED QUESTIONS

Why Only Existing (used) House?

Unlike Turkey, there is no discount for purchasing new properties in America or they are not cheaper than existing (used) houses that are in similar condition.

On the contrary, the purchaser pays extra for the brand new house that is being bought. As the tax amount will raise accordingly and the net income is the main issue for the investor, buying a brand new house should never be the first option.

Single House? Apartment Flat?

The idea that apartments are cheaper than single houses comes from your experience in Turkey. On the contrary, as maintenance and handicraft is more expensive in the States, apartment's monthly expense (HOA) will always be higher. For example, if you consider both a single house and an apartment flat getting the same amount of \$1000 a month, as the owner will pay the monthly expense (HOA) of the apartment, there will always be an expense of \$300-\$350 each month. Whereas the maintenance expense of a single house will be paid by the owner. TRUSA gets an appraisal for each house that will be purchased, sees the latest condition of it and all the costs that may come up later in a detailed report (approximately 30 pages long) and starts the transaction process after agreeing with you.

With the help of this foundation and services, an apartment with the same purchasing price and rent income will generate a net rent of \$650 while a single house will make around \$1000 a month.

Under what circumstances does it make sense to purchase apartment flats?

However, if the management of the apartment is done by your management company, then it makes sense. In that case subcontractors will not be included, you will not have to pay a high amount of (HOA) monthly expense and your rent income will not decrease. Since the expenses of the apartment will be divided into shareholders of the building, your expense will be less than the expense of a single house. As these conditions are very rare, single houses are recommended as they don't have HOA expenses.

What is Rent Guarantee Option?

TRUSA has been working with one of the leading insurance companies in America since 2015. With this 25 year agreement, TRUSA customers can purchase a property with the rent guarantee, if they wish, on condition that they pay %8 of their rent each month. This option is one of the most important features that makes TRUSA the leader in its field in Turkey as of today. If you want you can purchase your house without rent guarantee and not pay %8 of your rent.

What is included in the %8 rent guarantee commision?

%8 commision includes the transfer of your rent to your Turkish Bank Account or abroad on the 7th of each month and your insurance of getting your rent every month in time, even if your tenants can't pay the rent, pays late or even your house sits vacant for a while.

From which states can we purchahse a house?

The strength of TRUSA comes from the fact that it doesn't sell the houses it builds, so it assists the investors to buy the right house with the "know-how" experience of more than 15 years. For that reason you can buy a house from the city you want in the state you want, even from the Street you want. However when it comes to the point of purchasing the houses with the highest rent income, we will provide all the detailed information you will need and the keys of purchasing the right property in our office.

What does TRUSA commision include?

TRUSA charges %5 of the sales price of the property as commision for the assistance it provides. This commision includes attorney fees, accountant fees, title registration fee and real estate commision. During the purchase process you also pay inspection fee for the property you want to buy. This varies around \$250-\$300 depending on the size of the property and the state.

Visit to the American Consulate;

We make a short visit to the Notary Department of the US Consulate in Istanbul, with TRUSA, during the process of purchasing your house in America. The purpose of this visit is to prepare the necessary documents that will be needed to get your tax identification number which will match your name with your property. This procedure at the notary will take for about 15 minutes as this department is not in the visa application department, and it is also easy to get an appointment any day.

We invite you to TRUSA for answers to these questions and all your other questions.

After the deposit payment, we need to get the "Certified Copy-Original Copy" of your passport with a visit to the American Consulate with a TRUSA member, and make sure to deliver that document to our lawyers in the U.S.A.

The house purchase process is approximately 30 days.
The duration is the same for American citizens and foreign buyers.
